Regarding: DAV Grant for riding lessons at Quantum Leap Farm

I would personally like to take this time to sincerely thank the DAV for making it possible for us disabled veterans the ability to take horseback riding lessons at Quantum Leap Farm which is paid for by a grant from the DAV. I truly enjoy going to the farm for many reasons. First it helps me to get away from the stressors of inner city living. The farm is located in a rural area of Odessa, Florida where it is very quiet, peaceful, and relaxing. I also enjoy going to the farm because there are many different animals there to see and care for. Lastly, I have made friends with the staff and volunteers who work at the Farm. Going to the farm has helped me a great deal. I hope that the program can continue so that we are able to continue enjoying the farm in the ways it has benefited us all. Thank you once again!

Respectfully,
