

I was thrilled when asked to participate in the horse back riding program. I never felt more relaxed and more happy with myself. The riding gave me instant return on my expectations. I had-
ification was, ^a respond I will not forget. The inter-
action between myself and horse was exceptional.
All my fears was gone the first day.

I am glad for the program. I thank you for the opportunity to learn how to ride a horse.

I hope the program will continue to allow other veterans to learn how to horse back ride.
