

Program Report 2021

Mission

Improving quality of life and inspiring personal growth through equine-assisted therapies.

Vision

Excellence, not perfection. At Quantum Leap Farm, we envision a world where people are accepted unconditionally.

Programs

Our comprehensive equine-assisted therapy programs produce physical, social and mental health benefits for our participants.

Units of service through our 6 main equine-assisted therapy programs:

5,634

1/2 HR Units of Service

Therapeutic Riding - 1,427 units

Each session involves instruction in horseback riding and horsemanship skills. Sessions are facilitated by certified therapeutic riding instructors.

Mental Health (EASE, Equine-Assisted Self-Exploration) - 1,212 units

Facilitated by licensed mental health professionals. Individuals or groups participate in sessions designed to cultivate personal growth and development.

Occupational Therapy (Hippotherapy) - 429 units

Facilitated by a licensed Occupational Therapist, sessions are designed to improve functional abilities and increase independence through equine movement and behavior.

Military Retreats (Warrior Mission: At Ease) - 1,920 units

Five-day therapeutic retreats for veterans facilitated by a team of licensed mental health professionals. Retreats feature equine-assisted therapies and other cutting-edge best practices in mental health.

Family Fun Days - 595 units

Activities at the farm providing valuable peer-to-peer support and quality recreational time with friends and family members!

Basic Equine Skills Training (BEST) - 51 units

Vocational program facilitated by a licensed occupational therapist that allows adolescents and adults with disabilities to develop life skills while working with their equine friends!

“ This has been the most nurturing, caring, loving environment I have ever been in. From that new nurturing place I was able to process and heal without fear of being judged. The staff is amazing in their ability to understand and relate while also providing top care. This weekend has inspired me to find a new purpose helping people overcome their struggles so they can live more fulfilling lives. ”
