

QUANTUM LEAP FARM WISH LIST

New Arena & Patio Fans

\$75,000

Please help underwrite the replacement of our aging arena and patio fans to ensure a safe, comfortable, and healthy environment for our horses, participants, and volunteers. Our current fans are failing after years of continuous use in Florida's intense heat and humidity, reducing airflow within the arena where therapeutic riding and equine-assisted services take place. Proper ventilation is essential to regulate temperature and prevent heat stress for both horses and riders. Updated, energy-efficient fans will improve air circulation, enhance safety, and allow programs to continue comfortably even during the hottest months. Help us protect the wellbeing of our herd and community while sustaining uninterrupted services by underwriting all or part of this critical facility improvement!

New Pasture Fencing

\$50,000

For the past 25 years, our pastures have been a dependable sanctuary for our therapy equines. However, as time passes, so does the wear and tear on our infrastructure. We now need to replace our aging, deteriorating fencing. Our plan is to install new, durable fencing to ensure the safety and security of our equine friends while also enhancing our pastures' overall aesthetic appeal. Your support will benefit our beloved horses and contribute to the continued excellence of our programming!

Horse Trailer for Critical Care Transport

\$25,000

Please help us meet a critical need for safe horse transportation. Currently, we do not have a horse trailer, which limits our ability to transport horses for veterinary care and emergency situations. A reliable trailer will ensure our horses can travel safely and comfortably when needed. Having this essential piece of equipment will strengthen our ability to care for our herd and expand our mission.

Electrical Renovations in Barns

\$20,000

Please help us improve the safety of our aging barns. While they are structurally sound, our barns' vintage wiring and light fixtures range from 25-30 years old. Updated wiring and light fixtures will improve both the safety and working conditions in our barns, and reduce insurance and power bills. Help us stay safe and save money by underwriting all or part of this facility imperative.

Paved Road & Parking Lot

\$15,000

As our operations have grown, so too has the need for improvements to our roadways and parking lot. Currently, we face challenges in terms of accessibility, maintenance, and safety for both our horses, participants, and our visitors. Underwriting the cost of paving our farm roads and parking lot will provide a smoother, more stable surface for all who set foot (by two or four) on our property.

Therapy Horse Sponsorship

\$10,000

Help cover expenses related to therapy horse care: feed, hay, stall bedding, veterinary care, farrier services and dental care for an entire year. You may choose a horse or donkey to sponsor in honor or memory of a friend or relative, a special occasion, or as part of a corporate gift. Therapy horse sponsorships may be underwritten in whole or in part. Please help us keep our therapy horses happy and well cared for - after all, they're the heart and soul of our programs!

Thank you in advance for considering a gift!
